

FLYER 12

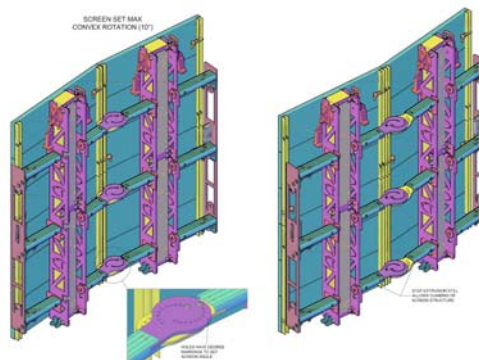

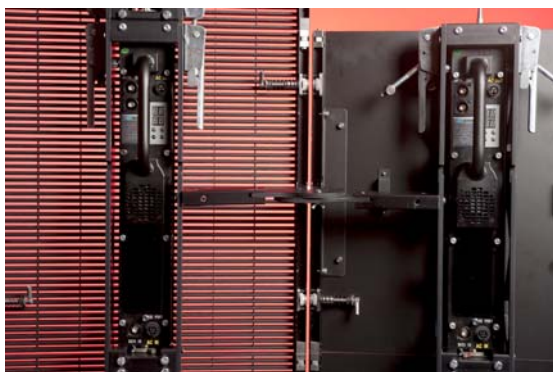

HIGH RESOLUTION AND LIGHTWEIGHT LED DISPLAY

The new Flyer 12 is a unique 12mm SMD LED display packaged in a high quality and lightweight modular form. Custom designed for the rental and touring markets, the Flyer 12 is the first lightweight transparent product to incorporate high precision mechanics which greatly enhance uniformity and overall visual appearance.

The unique design of the Flyer 12 provides exceptional transparency for a product of this resolution, whilst a simple slide in shutter provides an optional solid display which offers improved brightness and contrast allowing use in the highest ambient light applications.

The Flyer 12 is available in single tiles to allow maximum creativity or in touring modules which will reduce installation times. Both systems allow displays to be curved in convex or concave forms or any combination of the two.

This unique functionality combined with state of the art processing and control functions provides a powerful and highly cost effective for high quality creative display applications

Key Benefits

- Unique 12mm SMD LED display
- Lightweight
- Exceptional transparency
- Rental and touring markets
- Improved brightness and contrast
- Powerful and cost effective

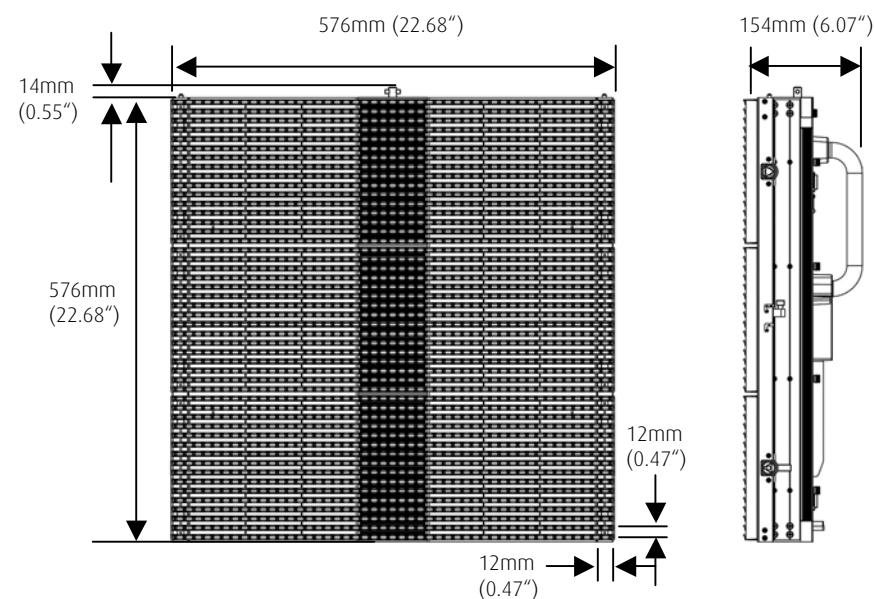

Specification

Individual Tile

Pixel Pitch	12mm
Brightness (Nit or cd/m ²)	5500
Transparency	40%
LED type/Brand	3 in 1 SMD / SDK
Tile size (mm) w x h x d	576 x 576 x 154
Tile size (inches) w x h x d	22.68 x 22.68 x 6.07
Pixels per tile	48 x 48
Pixels per m ²	6944
Viewing angle horizontal/vertical	140°/140°
Weight per tile	8.6 kgs /18.96lbs
Weight per m ²	26.5 kgs/58.4lbs
IP Rating	IP65
Max power per tile	300 watts
Avg power per tile	120 watts
Temperature	-20 to 50°C/-4 to 122°F

Rental Module

Module size (mm) w x h x d	1152 x 1152 x 154
Module size (inches) w x h x d	45.36 x 45.36 x 6.07
Pixels per module	96 x 96
Weight per module	50.3kgs / 110.84lbs
Maximum power per module	1200 watts
Average power per module	480 watts
