

Marantz – PMD570

For years, Marantz Professional has led the industry in the recording and gathering of audio for every application from recording sessions to Corporate Boardrooms and beyond. Not afraid of moving forward with technology, the new PMD570 pro-installation solid state recorder from Marantz Professional will lead the charge in audio data acquisition.

Replacing the traditional cassette tape with readily available and affordable CF (compact flash) cards may be scary; but after all of the benefits of doing so have been realised, you'll know why Marantz Professional and the PMD570 are out in front again.
